Do you want to meet to take this call together? I can get a room down here or I can come up. Let me know.

Doug - unfortunately I did not have time to call you back today (Wednesday) and it is unlikely that Thursday will be any better. It seems that I am deeply involved in a new project (new to me) - the Dupont Pompton Lakes cleanup in northwest NJ.

After reading the string of email chains, speaking to Carol, phone tag with Liz, it seems like the most practical thing to do is:

(1) you and co-chairs cancel Feb 11 CAG mtg due to Tierra absence, not a lot of new removal materials to discuss, Feb is a short month, we need to prepare intensely for the March 11 CAG mtg
(2) March CAG mtg has been scheduled and the regional administrator committed to that date...leave March 11 mtg as planned.....Tierra is either not present, and EPA does their presenting, or Tierra coughs up an Arcadis consultant or other mouthpiece to present the first cut of the CHASP. I strongly recommend to Liz that she convey to Tierra/Arcadis the importance of continuity and presence before the community...I think that they are building good will and it would be a shame for them to tear some of that down by a schedule conflict...I simply find it improbable that no person, not one, from Tierra or Arcadis is available on March 11...let's see their response before flogging too severely

Doug, Carol, Tom - your decisions, these are merely my thoughts....I will support whatever you decide

Hi, I also think skipping Feb is fine as long as we can catch up. I will be out of the country Feb. 12-17, but we could have the meeting on 2/18

I think the March meeting is all up to the RAs schedule
